

CHAUNDA C. DALLAS, MSIT

Healthcare Cybersecurity Strategist

IoMT & Medical Device Security · Clinical AI Risk · Healthcare GRC

Featured Defender — Semperis “Midnight in the War Room” · Black Hat USA 2026 · Creator, Patient-Side Threat Modeling

connect@chaundacdallas.com · US-Based / Remote · chaundacdallas.com

PROFESSIONAL SUMMARY

Healthcare cybersecurity strategist bridging **28+ years of frontline clinical operations** (Level II Trauma, IR, Hyperbarics, Pediatrics) with advanced information security, where real-world clinical context is the ultimate differentiator.

- **IoMT & AI Governance:** Specialist in medical-device risk, clinical AI red-teaming, and GRC alignment across HIPAA, NIST CSF, HITRUST, and FDA regulatory guidance.
- **Proprietary Frameworks:** Creator of **Patient-Side Threat Modeling (PSTM)** and operator of the **DFR Lab**, stress-testing clinical AI and modeling IoMT vulnerabilities by direct patient consequence.
- **EHR & Operational Resilience:** Epic Super User with end-to-end enterprise implementation experience, training and supporting 200+ clinicians through go-lives, upgrades, and critical downtime procedures.
- **Industry Leader:** Featured Defender in Semperis’ documentary *Midnight in the War Room* (Black Hat USA 2026).

CORE COMPETENCIES

IoMT Risk Management · Medical Device Security · Clinical AI Governance · AI Red Teaming (OWASP LLM Top 10) · MITRE ATLAS & ATT&CK · Patient-Side Threat Modeling (PSTM) · Threat Modeling · Healthcare GRC (HIPAA · HITRUST · NIST CSF · FDA · IEC 62443 · HHS 405(d) HICP) · SIEM Monitoring & Incident Response · Epic Super User & EHR Implementation · vCISO Advisory · Clinical-Technical Liaison · Telehealth & Digital Health Security

PROFESSIONAL EXPERIENCE

Founder & Principal Consultant | Chaunda C. Dallas Consulting — Healthcare Cybersecurity, IoMT & Clinical-AI Advisory
2022 – Present · Remote

- Provide strategic advisory across IoMT security, healthcare GRC, medical-device risk, and clinical technology strategy for health-system and health-tech clients.
- Creator of Patient-Side Threat Modeling (PSTM) — an original framework scoring medical-device and clinical-AI risk by patient consequence across five lenses (physiological dependency, latency to harm, bedside detectability, workaround pressure, downtime survivability), mapped to NIST CSF, HIPAA, FDA, IEC 62443, and HHS 405(d) HICP.
- Operate the DFR Lab: nine live IoMT failure scenarios, an AI Red Team for Healthcare framework, and a Healthcare Ransomware Intelligence Tracker.
- Red-team healthcare AI applications, clinical chatbots, and agentic clinical workflows within an authorized, consent-based scope, translating prompt injection, PHI/system-prompt leakage, and excessive-agency findings into patient-safety risks.

Virtual CISO (vCISO) | MyCyberIQ

Apr 2024 – Dec 2025 · Remote

- Hired as CISO, transitioned to vCISO Advisor for an early-stage healthcare cybersecurity platform — set security strategy, human-risk and awareness programs, and compliance-informed product direction.
- Advised on ransomware defense and healthcare market positioning, bringing clinical credibility and healthcare GRC expertise to a health-adjacent product.

Founding Security Engineer (Contract) | Koalesce Studios / Desivity

Aug 2025 – Dec 2025 · Remote

- Designed end-to-end security architecture for a decentralized social platform — Zero Trust across all services and APIs, a full platform threat model, and a version-controlled SECURITY.md as the source of truth.
- Created SOC 2 Type I and ISO 27001 readiness frameworks, GDPR compliance planning, and foundational security policies from inception — accelerating audit readiness by an estimated nine months.
- Built database, API, and infrastructure controls: Supabase Row-Level Security, JWT authentication strategy, encryption at rest / in transit, and multi-domain Cloudflare DNS / WAF / DDoS protection across three properties.

SOC Analyst Apprentice — MIC LEAD Builders Program | MiiC Talent Solutions, Inc.

Sep 2024 – Sep 2025 · Remote

- Year-long hands-on SOC apprenticeship (lecture and labs): alert triage, log analysis, SIEM investigation, and MITRE ATT&CK-aligned detection and incident response.

Operations Manager & Cybersecurity Strategist | HeartLove Place Ministries

Jun 2023 – Apr 2024 · Milwaukee, WI

- Detected and shut down a live website-spoofing / brand-impersonation campaign targeting donations — preventing approximately \$30K in fraud.
- Deployed SIEM monitoring and alerting, built incident-response procedures, and delivered security-awareness training for staff and volunteers.

Customer Success Engineer — Clinical AI & EHR (Contract) | DeepScribe

Dec 2021 – Mar 2022 · Remote

- Led onboarding and live training for clinicians adopting ambient AI documentation across multi-site practices; customized workflows within athenahealth, Kareo, and eClinicalWorks.
- Served as clinical-technical liaison between physicians, engineering, and product teams.

Graduate Research Assistant — Medical IoT Security | Kennesaw State University · CCSE

2020 · Remote

- Architected security and privacy frameworks for WiFi-based fall detection and remote patient monitoring; conducted IoMT threat modeling and embedded Privacy-by-Design, translating HIPAA requirements into technical architecture.

Emergency Department Operations Lead | Piedmont Hospital

1999 – 2016 · Atlanta, GA

- 17 years as Lead ER Technician and Clinical Preceptor across two Level II Trauma EDs; selected as ER Epic Super User during Piedmont Atlanta's Epic implementation, supporting 200+ clinicians through go-live, upgrades, and downtime readiness.
- Developed manual workflow protocols during EHR outages to maintain uninterrupted patient care — observing firsthand how workflow pressure, fatigue, and system limits create the cybersecurity vulnerabilities that now define my practice.

Lead Clinical Coordinator | Azura Vascular Care

Apr 2016 – Oct 2021 · Decatur, GA

- Directed clinical operations across Interventional Radiology and surgical suites; orchestrated HIPAA-aligned data exchange across surgeons, payers, and referral networks, maintaining PHI integrity under continuous operational pressure.

ADDITIONAL EXPERIENCE — CYBERSECURITY EDUCATION & MENTORSHIP

- **Technical Mentor**, Women in CyberSecurity (WiCyS), May 2024 – Present — mentored 600+ individuals new to cybersecurity across three consecutive cohorts, guiding healthcare-cyber specialization pathways.
- **Cybersecurity Educator & Career Coach** — Google Tech Equity Collective (2024–2025) and People for Change Coalition (Summers 2022 & 2025); designed and taught cybersecurity, health-tech, and app-development curriculum.

INDUSTRY RECOGNITION

- Featured Defender — Midnight in the War Room | Semperis Documentary | Premiering at Black Hat USA, August 5, 2026
- Panelist — WiCyS 2026 Virtual Conference (Behind the Scenes of Midnight in the War Room) · Women in Security and Privacy (Inside Hacker Summer Camp)
- Podcast Guest — Halcyon Last Month in Security (Ep. 006) · Lead Badge Liaison — DEF CON 33 & Black Hat USA

EDUCATION & CERTIFICATIONS

- M.S., Information Technology (Cybersecurity Concentration) — Kennesaw State University
- Graduate Certificate, Healthcare Technology · B.S., Criminal Justice — Kennesaw State University
- Microsoft SC-900 (Security, Compliance & Identity Fundamentals) — scheduled, August 2026
- Google Cybersecurity Professional Certificate · Cybrary SOC Analyst I Certificate
- In progress — WiCyS x Just Hacking Training: AI Cyber Defense Ops (Anton Ovrutsky) · Google AI Professional Certificate · hands-on offensive labs · Hack The Box
- Ph.D., Healthcare Cybersecurity & Offensive Engineering — Capitol Technology University (Accepted · Strategically Deferred)
